How to Clear Cache and Reset Citrix in Google Chrome

1. Click the **three dots** menu in the top-right corner of Chrome.
2. Select **Delete browsing data...** (or paste chrome://settings/clearBrowserData in the address bar).
3. Choose **All time** for the time range.
4. Check **Cookies and other site data** and **Cached images and files**.
5. Click **Delete data**.
6. Close all browser windows completely, then reopen Chrome.
